

## Parking lot USB exercise

<b>Contents</b>	<p>Write <b>2-3 sentences</b> about the types of information found on this device.</p> <ul style="list-style-type: none"><li>• <i>Jorge's USB device had family photos and other PII stored onto the device.</i></li><li>• <i>Jorge's USB device had work plans for the hospital and HR Dept.</i></li><li>• <i>Also, company budget plans, shift schedules and resumes.</i></li></ul>
<b>Attacker mindset</b>	<p>Write <b>2-3 sentences</b> about how this information could be used against Jorge or the hospital.</p> <ul style="list-style-type: none"><li>• <i>Misplacing the budget plans and shift schedules can affect other employees by a threat catching onto when certain employees are away from their post and can leave unattended devices at risk.</i></li><li>• <i>Family photos and wedding plans can leave relatives at risk to a potential security threat</i></li><li>• <i>The information could allow a threat actor to break into the hospital's network if the device gets malicious code installed onto it and left in or near the building.</i></li></ul>
<b>Risk analysis</b>	<p>Write <b>3 or 4 sentences</b> describing technical, operational, or managerial controls that could mitigate these types of attacks:</p> <ul style="list-style-type: none"><li>• <i>There could be malicious code on the device that will copy the memory of a computer when plugged into it. Also a threat actor could install malicious code onto the device that would let them know when the device is plugged into another computer by a separate employee</i></li><li>• <i>What sensitive information could a threat actor find on a device like this? A threat actor could find PII on a device like this or even worse, SPII. Things like addresses and card numbers and more.</i></li><li>• <i>The PII or SPII stolen from someone can hurt the individual by leaking all of their private data to the dark web and/or taking matters into their own hands by altering login credentials, changing addresses, monitoring accounts etc.</i></li></ul>
